

Salesforce Developer

Chrane Foodservice Solutions, Houston, Texas, United States (On-site)

Chrane is seeking an experienced Salesforce Developer to join our Enterprise Systems & Intelligence team. In this role, you will support the design, configuration, and ongoing maintenance of Chrane's Salesforce environment to drive sales productivity, data integrity, and operational efficiency. While working cross-functionally with Sales, Marketing, Customer Success, and operational teams to translate business needs into scalable platform solutions that support our growth and the success of our manufacturer partners and customers.

What You Will Do

- Understand business requirements and translate them into project milestones.
- Develop and maintain comprehensive documentation for Salesforce business processes, system configurations, and best user practices.
- Import and export data between Salesforce and external systems as needed, ensuring data integrity.
- Create and maintain Salesforce reports, dashboards, and custom views to help users, assisting Chrane and customers achieve increased sales and marketing success.
- Customize Salesforce functionality using declarative tools such as Flow, Formula Fields, and other applicable configurable functionality.
- Manage user setup, profiles, roles, and permissions to ensure appropriate access levels and data security.
- Create and maintain API integrations between Salesforce, AWS, OpenAI API, Azure, M365 Suite products, and others as the tech stack expands.
- Develop agents and generative AI concepts to streamline business processes and improve data visibility.
- Configure and maintain custom objects, fields, validation rules, and record types.
- Monitor system performance and proactively identify and resolve issues.
- Configure and maintain Lightning Page Layouts and Classic Layouts (User Interface/UI), where appropriate, based on business unit needs.
- Collaborate with third-party resources for larger projects when needed. Consultants will include current trusted partners, and the potential for additional consulting resources determined by specific project needs.
- Troubleshoot technical issues and system bugs in Salesforce, SharePoint, MuleSoft, and related tools.
- Support cross-functional teammates by implementing backend configuration needs for process improvements.
- Maintain backlog hygiene and coordinate task updates in our project tracking system.

What We Are Looking For

- 3 to 6 years of hands-on experience with Salesforce administration or development, with a demonstrated ability to configure and maintain a Salesforce org.
- Salesforce Administrator or Developer certification is a plus and strongly encouraged.
- Working knowledge of APIs and integration concepts.
- Experience with declarative automation tools including Flow Builder, Formula Fields, and Validation Rules.
- Familiarity with Salesforce Lightning Experience, including Lightning Page Layouts and App Builder.
- Working knowledge of utilizing AI to effectively generate complex code, project documentation, Salesforce Agents, and process automations is required.
- Experience with data management tools and practices, including import/export, data cleansing, and maintaining data integrity across integrated systems.
- Must have exposure to MuleSoft/Zapier or other third-party integration tools.
- A related college degree in Information Technology, Computer Science, Business Information Systems, or a comparable field is helpful but not required. Equivalent work experience will be considered.
- Ability to manage multiple priorities, maintain organized documentation, and work with a high degree of attention to detail.
- Reporting and Dashboard building experience.

Travel

- Primarily office-based with occasional travel as needed for company meetings, training, or industry events.

Why Join Chrane

Chrane Foodservice Solutions represents leading manufacturers in the foodservice equipment and supplies industry.
